Dear Dr. Mallett,

Subject: License No. 12-21478-01

Your letter addressed to our Mr. Landry, and received here July 1, 1986, has been passed to me for my attention. I apologize for the delay in our response, caused by vacation schedules and inter-departmental hold-up.

May I also apologize for our oversight in not notifying you of the changes in our U.S.A. operations, with the resulting transfer of certain activities. As the extent of our dealings with radioactive materials in the U.S.A. is so limited as to be virtually insignificant, I would appreciate your advice and assistance regarding our best procedure. The facts are as follow.

- 1) The number of units, each containing approximately 0.9 microcuries of Americium 241, held at Naperville seldom exceeded 200; these were used for emergency field replacement only.
- 2) All such units were transferred to the Tonawanda address, where approximately 150 remain.
- 3) All defective units are returned to Toronto for disposal, via our Tonawanda address.

We confirm that only similar small quantities of units will be held in Tonawanda for emergency replacements, that each contains an Amersham foil source, AMM1001H, and that no repairs or disposal are permitted by this company in the U.S.A.

In view of the foregoing, would you please advise me of the most expedient process by which we may remain in conformance with your requirements.

Yours very truly,

Mara Cherubin

3. COMMENTS

As per telephone discussion between D. Mallett and Brenda Jackson, this is really an amendment to existing MARTONE license (NO. 12-2478-01) ~~to~~ to change address from which will distribute and remove possession as authorized use. However, since new address is in State of New York, need: new license (Region III for termination under title 10.382249)

SUMMARY <p style="margin-left: 40px;">A. Mallett called to clarify following:</p> <ol style="list-style-type: none"> 1. Status of license in Nagerville, IL. Mara Chumbin stated she is now the contact pt. for the license. They removed all material few years ago. The license was really only for sales rep. in U.S. to receive & redistribute smoke detectors from manufacturers in Canada. A. Mallett asked Mara to clarify in a letter what happened to all old material & method used to assess no longer in Nagerville. 2. A. Mallett asked Mara to indicate nature of Tonawanda, NY facility & whether it possesses license for devices. May not need one if transferred to Tonawanda as an exempt licensee. 3. A. Mallett asked Mara to state what they want done with license (i.e., terminate; amend to change mailing address, name, etc.). <p style="margin-left: 40px;">A 10/2/86 telecon to L.
