Ms. Beth Riedlinger  
Health Physicist (Licensing)  
Materials Radiation and  
Inspection & Licensing Section  
U.S. Nuclear Regulatory Commission  
Region V  
1450 Maria Lane, Suite 210  
Walnut Creek, California 94596

Dear Ms. Riedlinger:

Reference: Radioisotope License #53-17839-01/Mail Control No. 70589

Please accept this letter as our formal request to amend the license number listed above in the new Part 35 format.

We request the addition of the Cintichem, Inc. I-125 Sealed Source, Model Number 6525, Registration #NY222S001S for use in the Siemens Single Photon Absorptiometry Unit. The total possession limit should be 800 mCi/Ci to facilitate the exchange of sources. No single source will exceed 800 mCi in nominal activity. All sources will be shipped and used in the Siemens source holder.

Complete instructions regarding the safe use and handling of the I-125 source will be provided with each source by Cintichem, Inc. Sources will only be handled according to the manufacturer's instructions.

The Siemens Osteoan Analyzer #SPSHA110 Single Photon Absorptiometry System is licensed by the U.S. Nuclear Regulatory Commission for clinical use under certificate number NR 525 D-101S and dated May 16, 1986.

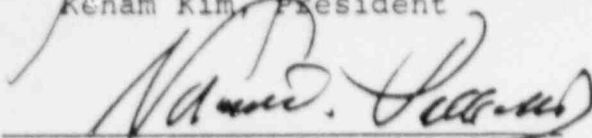

All spent sources will be disposed of by Cintichem, Inc., the source manufacturer, as part of their source exchange program.

Should you have any questions regarding this application, please contact us at 9-808-621-8411, ext. 218.

Sincerely yours,

WAHIAWA GENERAL HOSPITAL

  
Kenam Kim, President

  
Norman O. Polk, M.D.
