United States Testing Company, Inc.
ATTN: Mr. Robert E. Green
Corporate Radiation Safety Officer
3536 Oakdale Road
Modesta, CA 95355

Gentlemen:

This is in follow-up to our telephone conversation of February 11, 1988.

Your submittal of October 20, 1987, "Radiation Safety Program - UST 985" does not represent the commitment we require for a Quality Assurance Program meeting the applicable NRC requirements described in Subpart H of Part 71. This QA manual includes your step by step operating procedures, which is "implementation" of your commitment.

Enclosed in a sample QA program for radiography devices containing special form we find acceptable, and which you may wish to follow.

If you have need for further assistance, please call me at 301/492-0482.

Sincerely,

Leonard Gordon
