July 31, 1987

United States Nuclear Regulatory Commission Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Ref.: NRC License 14-01837-05

Gentlemen,

This letter is to request the termination of the above referenced NRC license. Since January of 1986 when Iowa became an agreement state, we have been licensed by both the NRC and the state of Iowa. At this time we have no present or future need for both licenses. We will renew our Iowa license only.

We will not dispose of any material we now have. It is covered by our Iowa license number 14-01837-04.

If you have any questions, please contact Al DeFrancisco our Radiation Safety Officer, at phone number 515-244-6000.

Sincerely,

PITT-DES MOINES INC.

Orville Earhart
