Dear Director:

Enclosed for NRC records is a copy of the latest revision to General Atomics' (GA's) "*Fixed Site and Transportation Plan for the Protection of Special Nuclear Material of Moderate and Low Strategic Significance*," revised April 1997. For your convenience, a summary of the changes has been included as part of the revised document.

GA has concluded that these revisions do not decrease the effectiveness of the plan and has made the changes pursuant to 10 CFR 70.72(e).

If you have any questions regarding any facet of the plan, please do not hesitate to contact myself at (619) 455-2823, or Mr. Brian Laney at (619) 455-4369.

Very truly yours,

*Keith E. Asmussen*
