Re.: Renewal Lic. No. 52-21082-01
Program Code: 02210

Dear Sirs:

In answer to the Notice of Expiration dated May 5, 1987, I am hereby requesting renewal of my license No. 52-21082-01 for the use of radioactive materials in humans.

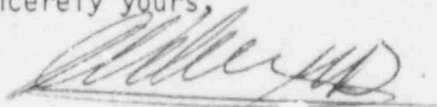

In support of this request, please find enclosed a complete up-to-date Renewal License Application prepared in accordance with the new revised Regulatory Guide 10.8, Revision 2 (August, 1985).

This document compiles statements, conditions and procedures contained in the initial application dated May 3, 1982 and letter dated August 1, 1982 and reflects my current program.

A check for \$580.00 (five hundred and eighty dollars) is also enclosed as the proper fee for the renewal of a license category 7C as stated in 10 CFR-170.31, schedule of fees for material licenses and other regulatory services dated May 31, 1984.

I will be glad to provide any other additional information deemed necessary.

Sincerely yours,

G. Velasquez-Velez, M.D.
