Gentlemen:

Subject: Routine Inspection No. 87-001

On December 3, 1987, R. H. Ladun of this office conducted a routine safety inspection at the above address of activities authorized by the above listed NRC licenses. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with Mr. T. G. Simonetti at the conclusion of the inspection. This also refers to the telephone conversation on January 4, 1988 between Mr. T. G. Simonetti and Mr. R. H. Ladun.

As discussed at the meeting at the conclusion of the inspection, since all authorized individuals listed in Condition No. 12 of both your licenses are no longer employed by your company, all licensed materials must either be disposed of or placed in secure storage and you must either amend your license(s) to reflect new authorized users or request that the licenses be terminated. Please notify us in writing of your plans in this regard.

In accordance with Section 2.790 of the NRC's "Rules of Practice", Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room.

Your cooperation with us is appreciated.

Sincerely,
