Gentlemen:

Referencing our letter dated January 15, 1988, we have decided to continue our well logging business and will respond in detail to the Notice of Violations. Your letter of February 8, 1988 granted us the additional 60 days as we requested. We have asked our radiation safety consultant to assist us in this response. This should be forthcoming within 10 days.

Thank you for your cooperation.

Sincerely,

Marshall S. Brackin
