Hugh A. Barker
President and
Chief Executive Officer

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation

Mr. John G. Davis, Acting Director
Office of Inspection and Enforcement

U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Construction Permit Nos.: CPPR-170
CPPR-171

Marble Hill Nuclear Generating Station
Units 1 & 2

Gentlemen:

This is in response to your letter of December 6, 1978, regarding accuracy and completeness of information submitted by applicants and licensees to the Nuclear Regulatory Commission.

Public Service Company of Indiana, Inc. (PSI), is committed at all levels of management to a technically and financially sound project and to a rigorous Quality Assurance program. That dedication is expressed in testimony which I presented before the Atomic Safety and Licensing Board at Madison, Indiana, in PSI's Quality Assurance program, and in the experience and performance of its personnel.

It is the intent of PSI to insure that all information submitted to the NRC is both accurate and complete. If time constraints result in inadvertent submittals which do not meet our high standards, corrections will be made promptly upon discovery.

Sincerely,

Hugh A. Barker
Hugh A. Barker
