

NRC/POR

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

JUN 26 1979

MEMORANDUM FOR: D. Crutchfield, Section Leader, Technical Support
Section, Program Support Branch

FROM: D. Eisenhut, Acting Director, Division of
Operating Reactors

SUBJECT: WITHDRAWAL OF PROPOSED REGULATORY GUIDE 1.104 -
OVERHEAD CRANE HANDLING SYSTEMS FOR NUCLEAR POWER
PLANTS

In accordance with the RRRC recommendation, the Division of Operating Reactors finds it acceptable to withdraw the proposed Regulatory Guide 1.104, "Single-Failure-Proof Overhead Crane Handling System For Nuclear Power Plants," and replace it with NUREG 0554, "Single Failure-Proof Cranes For Nuclear Power Plants." It is our understanding that the requirements of NUREG 0554 will be identical to those contained in Regulatory Guide 1.104.

For convenience in implementing the requirements at operating plants, it is our understanding that DES will develop a matrix showing where all of the requirements in R. G. 1.104 are to be found in NUREG 0554.

D. Eisenhut, Acting Director
Division of Operating Reactors
