TO WHOM IT MAY CONCERN:

Please amend License #21-20355-01, Chelsea Community Hospital, to add David E. Baker, M. D., for groups I through III. Dr. Baker is a board certified radiologist and is licensed in the State of Michigan, License #047555.

In addition, Dr. Baker will serve as the radiation safety officer for Chelsea Community Hospital. Dr. Harvey E. Amoe, Jr., previously held the position as radiation safety officer. He will, however, remain on the license.

Enclosed you will find a check for \$120.00 to cover the amendment fee for this transaction. Please forward this amendment to us as soon as possible. We are scheduled for an inspection by Joint Commission in Accreditation of Hospitals in August. It is my intent to have all areas within compliance.

Thank you for your prompt attention to this matter.

Sincerely,

Kathleen Raymond
