Gentlemen:

This refers to your letter dated June 10, 1987, for an amendment to Materials License 21-00243-06 for the purposes of adding an irradiator and changing the name of the Radiation Safety Officer.

We received your check for \$120. Your application, however, is subject to an application fee of \$230 as specified in fee Category 3E and Footnote 1(d) of §170.31, 10 CFR 170, copy enclosed. Footnote 1(d) states in part that an application for amendment to a materials license that would place the license in a higher fee category or add a new category must be accompanied by the prescribed application fee for the new category. Your request for the addition of a self-shielded irradiator will increase the scope of your licensed program to include fee Category 3E. Payment of the additional \$110 should be made to the U.S. Nuclear Regulatory Commission and mailed to the attention of Cheryl Phillips at our Washington, D.C. address. When submitting the additional fee, please refer to CONTROL NUMBER 383722.

Your application will be processed by the Region III Licensing staff located at 799 Roosevelt Road, Glen Ellyn, Illinois 60137. The additional fee, however, is required prior to issuance of the amendment. If you have any questions concerning this matter, please let us know.

Sincerely,

Original Signed By
