Thompson of this office conducted a routine safety inspection at Manchester, New Hampshire, Northboro, Massachusetts and Auburn, Maine of activities authorized by the above listed NRC license. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with Wayne [redacted] at the conclusion of the inspection. This also refers to the telephone conversation on October 14, October 28, November 19, 1987 and December 1, 1987 between Art Rose and Thomas K. Thompson.
