Docket No. 50-29

Yankee Atomic Electric Company  
ATTN: Mr. Robert H. Groce  
Licensing Engineer  
20 Turnpike Road  
Westboro, Massachusetts 01581

Gentlemen:

As you are aware, the normal channel of oral communication with the Office of Nuclear Reactor Regulation, NRR, is through the assigned Division of Operating Reactors, DOR, project manager or his backup. For the Systematic Evaluation Program, SEP, this procedure will continue to be followed to the extent practical in discussions concerning schedules, requests of additional information, and other matters requiring your support. However, to expedite reviews, direct oral communication between your staff and members of the SEP Branch and their supporting staff is encouraged for purposes of exchange or clarification of technical information. Therefore, with regard to the SEP you may expect to receive calls from NRR staff members other than the project manager. If any such calls require a significant effort on your part, please inform the DOR project manager.

Sincerely,

*Dennis L. Ziemann*
