

15 MAR 1988

Docket Nos. 50-277
50-278

Philadelphia Electric Company
ATTN: Mr. Corbin A. McNeill
Executive Director
2301 Market Street
Philadelphia, Pennsylvania 19101

Gentlemen:

Subject: Meeting Summary

A meeting was held in the NRC Region I office on February 19, 1988 concerning the Philadelphia Electric Company. The meeting was attended by:

C. McNeill	Senior Vice President - Nuclear, PSE&G
W. Russell	Regional Administrator, Region I
S. Varga	Associate Director for Projects, NRR
W. Kane	Director, Division of Reactor Projects

Mr. McNeill announced that effective February 29, 1988 he would assume responsibility for the nuclear activities of Philadelphia Electric Company (PECo) and would have the title of Executive Director - Nuclear, and report to J. L. Everett, Chief Executive Officer. As such he would effectively replace J. Kemper, Senior Vice President - Nuclear. J. Kemper will report to C. McNeill and will be responsible for construction completion at Limerick 2. D. Smith, Vice President, Peach Bottom; G. Leitch, Vice President, Limerick; J. Kowalski, Vice President, Nuclear Engineering; D. Helwig, General Manager Quality Assurance; and J. Gallagher, Vice President, Nuclear Services will also report to him. No other organizational changes were identified or discussed.

Mr. McNeill noted that he had visited the Peach Bottom site for about a week, earlier in the year. He expressed concern with the large number of people on site and expects to review that situation as a high priority.

The NRC staff noted that the INPO letter of January 11, 1988 raised concerns with the extent to which external parties had the opportunity to provide a viable input to the PECO submittals. We advised Mr. McNeill that we were preparing a letter requesting PECO to address this issue. He acknowledged that and noted that it would likely be mid April before he would be able to conduct his assessment and respond.

Sincerely,

 Signed By:

W. F. Kane, Director
Division of Reactor Projects
