Re: Import of 44000 Kg U at a maximum of 1.0 percent
for Contract EU/41 TN Ref: 78-245/02 (TNP-244)
(Reference our letter of September 7, 1978)

Dear Mr. Moore:

Please amend our request for Import License dated September 7, 1978
to include the following additional information:

4) A portion of this enriched uranium (22447 Kg U) is coming from
reprocessing of fuel elements under previous toll-enriching contract
number UES/EU/2 and is of U. S. Origin.

The balance of material (21553 Kg U) is of Canadian origin. This
material has not been enriched, but instead has been blended with
uranium under contract UES/EU/2. This material will be converted to
UF6 by Comurhex, Pierrelatte, France on behalf of Cogema.

Thanking you in advance for your help and cooperation.

Sincerely,

Vicki Matson
Traffic Coordinator
