USNRC

Sirs:

The Office of Public Affairs has sent me a notice that the NRC is considering the Additional regulations on emergency plans. The Comment period ends in August. This is too short a comment period.

Also send the notice to the list of enclosed people as they are very interested in commenting on this.

Also consider transportation accidents. What would be the circumstances if a load of spent fuel cracked open on the elevated part of the Roosevelt Boulevard Extension where it passes over Germantown neighborhood? Imagine it crashing down hundreds of feet upon the houses below and releasing that load of radiation.

This is a question which I have brought up before without any answer from the NRC.

PS You can also send Proposed Rule Changes in Anticipation of US/IAEA Safeguards Agreement, requests for public comment ~~xxxx~~.

Acknowledged by card.
