

U.S. NUCLEAR REGULATORY COMMISSION

[DOCKET NO. 50-341]

DETROIT EDISON COMPANY

RECEIPT OF PETITION FOR DIRECTOR'S DECISIONUNDER 10 CFR §2.206

Notice is hereby given that the Honorable James Caldwell, the Honorable Steven Langdon, the Honorable Herb Gray, and the Honorable Howard McCurdy, members of the Canadian Parliament, have requested that the Nuclear Regulatory Commission revoke the operating license of Fermi-2 until such time that the plant is safe to operate. The alleged bases for their request are certain deficiencies at the plant, which were revealed in several NRC documents. Petitioners claim that the plant should not be allowed to operate because of certain alleged deficiencies in the plant's design and several past attempts by Detroit Edison to withhold information regarding the plant.

This petition is being handled as a request for action pursuant to 10 CFR §2.206 of the Commission's regulations, and accordingly, appropriate action will be taken on the request within a reasonable time. Copies of the petition are available for inspection in the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555, and at the Local Public Document Room for Fermi-2 at the Monroe County Library System, 3700 South Custer Road, Monroe, Michigan 48161.

Dated at Rockville, Maryland, this 16 day of March, 1988.

FOR THE NUCLEAR REGULATORY COMMISSION

Thomas E. Murley, Director
Office of Nuclear Reactor Regulation
