Dear Sir:

Subject: Extension of Export License XSNM-510

Export license XSNM-510 has a current expiration date of December 1, 1978. This export license covers the prospective shipment of mixed oxide fuel assemblies to Kansai Electric Power Company of Japan for use in their Mihama Unit #1 power plant.

Based on current plant schedule, the mixed oxide fuel, consisting of 52.615 kilograms of plutonium and 1365 kilograms of uranium, may not commence shipping until after the current expiration date. We are hereby requesting a two year extension for this license and request the license be amended to expire on December 31, 1980.

This license has been lodged with U. S. Customs Department at the World Trade Center, New York.

If you have any questions on this request, please do not hesitate to call. My telephone number is (412)-373-4436.

Sincerely,

*R. C. Hobaugh*
