By letter dated August 19, 1977, we sent you a copy of our guidelines, "Nuclear Plant Fire Protection Functional Responsibilities, Administrative Controls, and Quality Assurance." We request that you review your fire protection program for conformance with those guidelines. Please provide the results of your review by May 15, 1978. In those areas where you meet the guidelines or intend to meet the guidelines, a statement to that effect is all that is necessary. If you do not meet nor intend to meet the specifics of the guidelines, you must give your justification including any alternative methods by which you achieve a commensurate level of fire protection. A copy of the guidelines is again enclosed for your convenience.

Sincerely,

151

A. Schwencer, Chief  
Operating Reactors Branch #1  
Division of Operating Reactors

Enclosure:  
Guidelines for  
Fire Protection
