Docket No. 50-29

References: Your letter dated June 19, 1972
In response to our letter dated June 9, 1972

Gentlemen:

Thank you for your letter of June 19, 1972 containing your position relative to the use of two valves which were constructed to ANSI B31.1 in the backfitted portion of the safety injection system which was constructed in accordance with ANSI B31.7 as approved in your proposed changes numbers 95 and 97 by the Directorate of Licensing.

This matter has been referred to our Headquarters Office, Bethesda, Maryland for further review. You will be informed of our position.

Very truly yours,

James P. O'Reilly
Director
