Gentlemen:

RE: YANKEE-ROWE ATOMIC POWER STATION

Our letter of December 1, 1977, provided a report on the Systematic Evaluation Program (SEP) which contained a detailed description of the program. That report included a copy of the general Topic List which will form a basis for the SEP review.

In developing the Topic List, a definition for each topic was prepared to ensure our common understanding of the issue. Since it is important that all participants in the SEP have a common understanding of the topics, a copy of the definitions is enclosed for your information and future discussions. It should be recognized that these definitions were prepared as a working tool and that some of the topics may be modified as our review progresses.

Sincerely,

ORIGINAL SIGNED BY  
DARRELL G. EISENHUT

Darrell G. Eisenhut, Assistant Director  
for Operational Technology  
Division of Operating Reactors
