

100-1071
Pocket No. 50-29

Yankee Atomic Electric Company
441 Stuart Street
Boston 16, Massachusetts

Attention: Mr. William Webster
President

Gentlemen:

Receipt is acknowledged of your Operation Report No. 9.

We note that the results and conclusions reached with respect to the test demonstrating the use of boric acid in the main coolant system at power will be presented in a report and that a concurrent effort is in progress to interpret reactivity effects which took place just prior to the boron test.

Sincerely yours,

Distribution
