Re: Amendent of Export License (NRC License No. XU08430)

Dear Ms. Hemby:

I would like to request an amendment of Export License XU08430. Mr. Jacoby, Regional Marketing Manager for the Nuclear Products Division of Allied Chemical, has informed me that the UF₆ ordered was packaged in a larger cylinder and the weight of the material has consequently been increased.

The quantity of material has been changed from 2.146 kilograms uranium contained in 3.18 kilograms of uranium hexafluoride (UF₆) to 3.08 kilograms uranium contained in 4.55 kilograms of uranium hexafluoride (UF₆).

Could you please provide us with a letter approval of the change so that we can proceed with the shipment.

Thank you for your consideration of this matter.

Very truly yours,

Toshiyuki Furuyama
