SUBJECT: SUPPLEMENT 1 TO REVISION 3 OF THE CALVERT  
CLIFFS MODIFIED AMENDED SECURITY PLAN (MASP)  
(10/17/78)

A review of the temporary security arrangements to be established at Calvert Cliffs during the construction of a new Service Building per their letter and enclosure of October 17, 1978 has been completed.

The changes submitted were found not to decrease the level of the security plans of the Baltimore Gas and Electric Company's Calvert Cliffs Nuclear Plant or of the MASP. Therefore no action is required as a result of these changes.
