Ms. Lynn Worrall, Acting Chairman
Berkeley Township Environmental Commission
Pinewald-Keswick Road
P.O. Box B
Bayville, New Jersey 08721

50-219

Dear Ms. Worrall:

This letter responds to the Petition you filed pursuant to Section 2.206 of Title 10 of the Code of Federal Regulations (10 CFR 2.206) dated April 1, 1997, on behalf of Berkeley Township. In your Petition, you requested that the U.S. Nuclear Regulatory Commission (NRC) direct GPU Nuclear (GPU) to shut down its reactor at the Oyster Creek Nuclear Generating Station (OCNGS) during the facility's transfer of fuel from wet to dry storage.

As the bases for your request, you assert that (1) the load transfer path for the 100-ton fuel transfer casks passes over the reactor's containment mechanism and other safety-related equipment; (2) NRC Bulletin 96-02, dated April 11, 1996, states that a dropped cask could damage the isolation condensers and the torus, creating the possibility of an unisolable leak, which in industry jargon describes a situation perilously close to a nuclear meltdown; (3) the operating record of GPU demonstrates it is capable of human error, including dropping heavy loads; (4) Berkeley Township could not be successfully evacuated in the event of a serious nuclear accident at OCNGS; and (5) the safer, simpler alternative of turning off the reactor while lifting 100-ton loads over the containment can be easily implemented.

The staff has completed its review of your Petition, and for the reasons described in the enclosed Director's Decision your petition is dismissed as premature. A copy of the decision will be filed with the Secretary of the Commission for the Commission's review in accordance with 10 CFR 2.206(c). As provided by that regulation, the decision will constitute the final action of the Commission 25 days after the date of issuance of the decision unless the Commission, on its own motion, institutes a review of the decision within that time. The decision and the documents cited in the decision are available for public inspection and copying at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at Ocean County Library, Reference Department, 101 Washington Street, Toms River, New Jersey.

I have also enclosed a copy of the notice of "Issuance of Director's Decision Under 10 CFR 2.206," which includes the complete text of DD-97-14 that is being filed with the Office of the Federal Register for publication.

Sincerely,

Samuel J. Collins, Director
Office of Nuclear Reactor Regulation
