Subject: James A. FitzPatrick Nuclear Power Plant
Docket No. 50-333
1997 Final Safety Analysis Report Update

Dear Sir:

Ten copies of the update of the Final Safety Analysis Report (FSAR) for the James A. FitzPatrick Nuclear Power Plant are being submitted as required by 10CFR50.71(e).

This update also includes changes to Chapter 17, "Quality Assurance Program". These changes are described in Attachment I. These changes do not reduce the commitments in the QA program description previously accepted by the NRC and demonstrates the Authority's continued compliance with Appendix B to 10CFR50. The revised Chapter 17 fulfills the requirement in 10CFR50.54(a) to submit an update of the quality assurance program description.

No commitments are being made by the Authority in this submittal. If you have any questions, please contact Mr. Arthur Zaremba at (315) 349-6365.

Very truly yours,

MICHAEL J. COLOMB
