OFFICE OF SECRETARY

SERVED JUN 11 1997

In the Matter of

FRANK J. CALABRESE JR.

(Denial of Senior Reactor
Operator's License)

Docket No. 55-61425-SP

ASLBP No. 97-725-02-SP

June 11, 1997

MEMORANDUM AND ORDER
(Hearing File Supplement and
Presiding Officer Question)

After reviewing the contents of the NRC staff's May 8, 1997 hearing file and applicant Frank J. Calabrese Jr.'s June 4, 1997 written presentation, it is apparent NRC publication "Operator Licensing Examiner Standards," NUREG-1021 (rev. 7 Jan. 1993 & supp. 1 June 1994), is relevant to this proceeding. Although the staff included a portion of that document in the hearing file for this proceeding, applicant Calabrese has made reference to other parts of the document. To ensure the record is complete, at the time the staff files its written presentation, the staff should supplement the hearing file with a complete version of that document.

In addition, at the time it makes its written presentation, the Presiding Officer expects that the staff

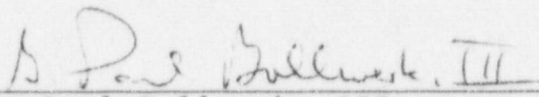

will address applicant Calabrese's assertions concerning the completeness of the hearing file. See Presentation on Behalf of Frank J. Calabrese Jr. (June 4, 1997) at 12-13.

Finally, in accordance with 10 C.F.R. § 2.1233(a), the Presiding Officer requests that as part of its written presentation, the staff address the following question:

Attachment 1 to Examiner Standard (ES)-302 in NUREG-1021 sets forth policies and guidelines that each applicant is to be briefed on prior to taking the operating test segment of a reactor operator examination. Relative to the simulator test portion of his senior reactor operator's license examination, which parts of these policies and guidelines was applicant Calabrese informed of and when and how was this information provided (i.e., in writing or orally)?

As part of his response to the staff's written presentation, applicant Calabrese may comment on the staff's answer to this question.

It is so ORDERED.*
