SUBJECT: AMENDED APPLICATION FOR RENEWAL OF MATERIALS LICENSE NO. SNM-1265
UNDER PART 72, TITLE 10, CODE OF FEDERAL REGULATIONS

Reference: Application for Renewal of Materials License SNM-1265; D.M. Dawson (GE)
to R.E. Cunningham (NRC) dated February 27, 1979

Gentlemen:

General Electric (the applicant) hereby amends its referenced application for renewal of Materials License No. SNM-1265, Docket 70-1308, which was filed in a timely fashion on February 27, 1979, by requesting license renewal in accordance with the requirements of Title 10, Code of Federal Regulations, Chapter 1, Part 72, "Licensing Requirements for the Storage of Spent Fuel in an Independent Spent Fuel Storage Installation (ISFSI)."

Materials License No. SNM-1265 authorizes the applicant to receive, possess, store and transfer irradiated fuel received from light water reactors at its Morris Operation fuel storage installation near Morris, Illinois. The characteristics of the nuclear fuel to be stored, the conduct of activities at Morris Operation, the qualifications and experience of the applicant and other pertinent information are included in the various documents submitted with the original application for renewal referenced above, and in the attachments to this letter. The documents previously submitted, as well as Attachments A through H submitted herewith, form a part of this amended application and are incorporated herein by this reference.

Attachments to this amended application are as follows:

- o Attachment A provides the names, titles, and addresses of the applicant's principal officers as effective on December 31, 1980. This attachment revises the corresponding information furnished with the application of February 27, 1979.
- o Attachment B contains a response to specific sections of 10CFR72, as requested by letter, L. Rouse (NRC) to D.M. Dawson (GE), November 12 and 28, 1980.
- o Attachment C contains references to each and every section of 10CFR72, showing the principal locations of relevant material in the Consolidated Safety Analysis Report, NEDO-21326C (the CSAR) or other submitted documents.
- o Attachment D provides a summary of environmental report information, referencing specific portions of documents previously furnished by the applicant and documents authored by the Commission's Staff or other Federal agencies.
- o Attachment E consists of a copy of General Electric Company's Annual Report for 1979 (the most recent report) in response to Part 72.14(e). Also, refer to the CSAR, Appendix A.7 as contained in Attachment G for financial arrangements related to decommissioning.
- o Attachment F contains the proposed Operator Training and Certification Program, submitted herewith for approval in accordance with Part 72, Subpart I, and Part 72.15(a)(8).
- o Attachment G contains the proposed Revision C3 of NEDO-21326C, the CSAR. The proposed revision incorporates new or expanded material in response to requirements of Part 72.
- o Attachment H contains proposed Technical Specifications for fuel storage activity at Morris Operation as required by Part 72.16. These specifications have been adapted from the previously approved Operation Specifications, Chapter 10 of the CSAR, NEDO-21326C.

Please note that the proposed Revision C3 of the CSAR is interrelated with the proposed Technical Specifications (Attachment H) and will not be effective until both the proposed revision and technical specifications have been accepted by renewal of Materials License No. SNM-1265 under 10CFR72. At that time replacement pages for the CSAR, incorporating Revision C3, will be furnished.

A fee of \$32,000 was furnished with the referenced Application for Renewal of Materials License SNM-1265 of February 27, 1979. Therefore, no fee is enclosed with this amended application. Please contact H.A. Rogers (408*925-6496) or C.C. Herrington (408*925-6385) of the applicant's staff if there are questions regarding this application. Correspondence regarding this application should

January 12, 1981

be sent to D.M. Dawson at Mail Code 861 at the above address.

The information contained in this submittal, and material previously originated and submitted by General Electric and referenced herein, are true and correct to the best of my knowledge and belief.

Respectfully submitted,

GENERAL ELECTRIC COMPANY
