

# ROCKY MOUNTAIN ENERGY COMPANY

December 29, 1980

Mr. Glen Mooney  
DEQ - District IV  
30 East Grinnel Street  
Sheridan, WY 82801

Dear Mr. Mooney:

RE: Nine Mile Lake Pattern 3 and  
Pattern 4 Status Reports

Attached are results of the December, 1980 sampling of the Pattern 3 and Pattern 4 monitor wells. Analysis of the assay results shows that all parameters are below the proposed UCL's for Pattern 4 wells, while M-40 and M-43 in Pattern 3 continue to show somewhat elevated levels of uranium and vanadium.

If you have any questions, please call.

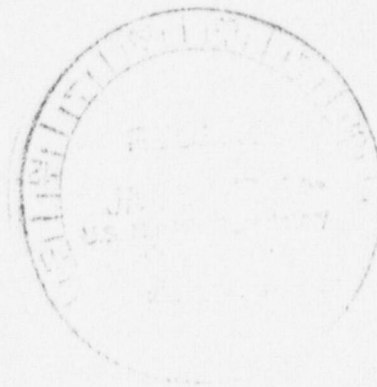

Sincerely,

*Mike Neumann*  
by PRS

M. R. Neumann
