SUBJECT: PREACCEPTANCE REVIEW OF THE NEW HAVEN, UNIT NOS. 1  
AND 2, FOR CONSTRUCTION PERMITS, NEW YORK STATE  
ELECTRIC AND GAS CORPORATION

New York State Electric and Gas Corporation (NYSE&G) plan to submit the CP application and the supporting ER for New Haven, Unit Nos. 1 and 2 on November 22, 1978. You are requested to perform an acceptance review of the appropriate sections which are within your area of interest.

The review should be based on Regulatory Guide 4.2, Revision 2, Preparation of Environmental Report for Nuclear Power Plants and current ESRPs as appropriate. Please provide the following information:

- A. Determine whether the ER contains sufficient information for the staff to prepare a Draft Environmental Statement.
- B. Identify any deficiencies found and provide the reviewer's opinion as to the seriousness of those deficiencies.
- C. Provide the reviewer's estimate of how long it may take a cooperative applicant to obtain missing information.
- D. Determine whether the detailed review can start and proceed, providing the missing information is supplied before or during the environmental site visit.
- E. Provide conclusions as to the acceptability of the sections reviewed.

Any major deficiencies in the ER should be communicated to D. E. Sells, the Environmental Project Manager assigned to this project, as early as possible. A telephone x28445 response followed by a short memorandum is satisfactory.

In order to maintain the acceptance review schedule, the results of your review are needed on or before January 12, 1978. Any additional information questions you may have regarding this project should be submitted by January 31, 1978. A short meeting will be held on Thursday, November 30, in Room P-110 at 1:00 PM to give the NRC staff reviewers the latest information that may be useful in the conduct of the acceptance review. It is requested that all NRC staff reviewers, listed in the attachment to this memorandum, attend this meeting.
