On April 21, 2020, the Nuclear Regulatory Commission (NRC) conducted an online virtual meeting concerning Vogtle Electric Generating Plant Units 1, 2, 3, and 4. The purpose of the meeting was to provide opportunities for the public to discuss the annual assessment for the period of January 1, 2019 - December 31, 2019.

In response to the COVID-19 coronavirus and updated Federal Government guidance on travel and social distancing the meeting was held remotely through the Skype for Business application. The following documents related to the meeting are available in ADAMS: Meeting Notice (ML20136A298), Vogtle Electric Generating Plant Units 1 and 2: Accession No. ML20063L629, ML2009L428, and Units 3 and 4: Accession No. ML20063L605.

The meeting was conducted from 4:30 PM to 6:00 PM eastern time. There were 73 attendees. In summary, the attendees consisted of representatives from the NRC, Southern Nuclear Company, Blue Ridge Environmental Defense League and members of the public. Due to the nature of the meeting, no official list of attendees is included. NRC staff were available for questions for half an hour. Questions related to Vogtle Units 3 and 4 involving construction related concerns were consistent with the normal meetings conducted near the station. Three members of the public requested a link for the slide presentation and was provided the link prior to the meeting concluding. Additionally, the meeting was listed in the Public Meeting Feedback System (PMFS) under Meeting Code (20200533) and upon submittal of this memo there were no public responses to the meeting.
