**Subject:** [External\_Sender] Holtec HI-STORE Consolidated Storage Facility

To Whom it may Concern:

This email is to express my opposition to the high level nuclear waste dump for Lea County, NM. The plan for this proposed site includes transporting 100,000 metric tons of radioactive waste through major population centers throughout the US. As there are presently 34 states which store high level waste, the plan to move all this waste to NM, transporting through rail and truck is an ecological and economical disaster. High level waste remains radioactive and highly toxic to all life forms for up to 1 million years. Citizens pay a high cost not only through tax dollars but also in terms of clean air, water, food, health and quality of their lives, their liberty and their pursuit of happiness. Holtec meanwhile, is a limited liability corporation. and thereby not held accountable for accidents, leaks or cleanup during transport and storage. For the estimated 55 new job openings through Holtec, compared with the hundreds lost in the agricultural, dairy and ranching sectors, this proposal is a shortsighted and unethical disaster. Please DO NOT go through with this. Thank you. Rosemary Dupray 717 W 6 Street Silver City NM 88061.
