June 9, 2020

Michelle Beardsley, State Regulation Review Coordinator  
State Agreement and Liaison Program Branch  
MSSR, NMSS

Dear Ms. Beardsley:

Enclosed are copies of the revisions to the proposed New Hampshire Radiological Health Rules He-P 4034 (Radiation Safety Requirements for Industrial Radiographic Operations), He-P 4037 (Transportation of Rad. Mat.), and He-P 4038 (Physical Protection of Cat. 1 and Cat. 2 Quantities of Rad. Mat.). The proposed revisions will be made available for public comment in late 2020 with a request for comments around the same period. We request NRC's comments by August. The proposed state sections are listed in the enclosed roadmaps and correspond to the following equivalent amendments to NRC's regulations.

<u>Rats ID</u>	<u>Title</u>	<u>State Sections</u>
2018-3	Miscellaneous Corrections	He-P 4034, 4037, 4038
2019-1	Miscellaneous Corrections	He-P 4038
2019-2	Org. Changes and Conf. Amend.	He-P 4037, 4038

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200.

If you have any questions, please feel free to contact me at (603-271-4585) or via email: [augustinus.ong@dhhs.nh.gov](mailto:augustinus.ong@dhhs.nh.gov).

Sincerely,

Augustinus Ong  
Administrator  
DPHS/Radiological Health Section

Enclosures: As stated.
