Bette, in order to continue our review of your request dated May 14, 2020, please provide the following additional information:

10 CFR 35.396(b)(1) requires the prospective authorized user for parenteral administrations to have successfully completed 80 hours of classroom and laboratory training, applicable to parenteral administrations. The documentation provided for Dr. Oh provides for 40 hours of training. Please provide additional documentation to support an additional 40 hours of classroom and laboratory training applicable to parenteral administrations. For instance, Dr. Oh's continuing education to maintain his board certification in radiation oncology may provide additional support for classroom and laboratory training.

You may reply via email to my request and attach the additional documentation. Please refer to Mail Control No. 618990 in your reply. Thank you for your assistance,
