Gene Solomon, Quality Assurance Officer
Anatek Labs, Inc.
1282 Alturas Drive
Moscow, Idaho 83843

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 11-35192-01

By correspondence dated February 19, 2020, Anatek Labs, Inc. informed the U.S. Nuclear Regulatory Commission (NRC) that you wished to terminate your NRC radioactive materials license. The NRC Form 314 dated February 19, 2020, stated that all radioactive material had been transferred to State of Washington License No. WN-L0238-01.

The supporting documentation to the NRC Form 314 also included final status survey results of the facility. A review of the historical file supported that radioactive materials were possessed by the licensee and were considered in the final status survey results. The NRC staff has reviewed the supporting documentation to your NRC Form 314. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from the facility and the facility located at 1282 Alturas Drive Moscow, Idaho, 83843, is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 3 to License No. 11-35192-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20), as applicable.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1127 if you have questions or require clarification on any of the information stated above.

Sincerely,

Michelle M. Hammond, M.Sc., Health Physicist
Materials Licensing and Decommissioning Branch
