---

Martha,

Sorry for my delayed response. We believe you are correct and it is unlikely there will be need for inspections in 2021. We are however working towards construction in 2022 and will keep you updated as we complete additional regulatory approvals.

Please let me know if you have any additional questions.

Thanks.

John

**Subject:** Dewy Burdock Site status for CY2021

Mr. Mays -

Hello. The regional office is starting to think about what might sites might need inspections during CY2021. I know when we exchanged emails last year, it did not look like the Dewey Burdock site was going to move into construction for a while, so I am under the impression that the region does not need to plan for any construction or pre-operational inspections in CY2021 for the site. If you would be so kind as to confirm or correct my impression. It would

be greatly appreciated. Thank you so much.

Marti
