Dear Mr. Sullivan:

On June 12, 2020, you informed us of an error in Amendment No. 10 of your NRC Materials License No. 34-31473-03MD issued June 11, 2020. In that amendment, we inadvertently failed to list an authorized user (AU). You had requested to add James Brading as an AU in your letter dated June 9, 2020. During our review, we found Mr. Brading's training and experience to be adequate to approve him as an AU but, as noted, failed to add him to the license when completing the amendment. We have corrected this in Condition 12.C. of your license. Enclosed is a Corrected Copy of Amendment No. 10 to your NRC Materials License No. 34-31743-03MD. We apologize for any inconvenience this error may have caused you or your staff.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U. S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with Title 10 of the *Code of Federal Regulations* Section 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or ADAMS, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
