RE: Notification of Intent to Terminate NRC License

Ms. Hill,

This letter is to convey our intent to make the necessary steps to terminate our NRC License by August 31, 2020.

We plan to follow NRC guidance in transferring one sealed source gauge to our Utah office to reside under their Utah Department of Environmental Quality Division of Waste Management and Radiation Control License and transferring our remaining gauge to a licensed gauge reseller, Qal-Tek Associates, but have not come to a financial agreement with our intended buyer.

In a June 25<sup>th</sup> phone conversation with Ms. Hanson from the USNRC Region IV office I discussed our intent and received suggestions from Ms. Hanson on how to proceed with decommissioning and termination of license. Our understanding after review of section B of Form 314 is that it cannot be completed until we have transferred the gauges and no longer have them onsite. Is our understanding of this correct? Our intent is to have a final decision on the terms of the second gauge transfer by July 10, 2020 so that section B of form 314 can be completed and all documentation including current leak tests can be submitted to the NRC.

Sincerely,

T-O ENGINEERS, INC.

Carson Rowley, P.E.  
Radiation Safety Officer
