3 July 2020

SUBJECT: Revised table of contents for PSU Breazeale Reactor Technical Specifications pending approval of ventilation system upgrade (EPID No. L-2019-LLA-0089)

To Whom It May Concern:

The proposed revisions to the PSU Breazeale Reactor Technical Specifications include changes to two section titles. The Table of Contents has been amended to reflect those changes. Specifically, Section 3.5 has been changed from "Engineered Safety Features – Facility Exhaust System and Emergency Exhaust System " to "Engineered Safety Features – Ventilation Systems," and Section 4.5 has been changed from "Facility Exhaust System and Emergency Exhaust System" to "Ventilation Systems."

The clean and mark-up copies of the revised Table of Contents are attached. Please contact me with any questions you may have about these documents.

Sincerely,

Jeffrey A. Geuther

Associate Director for Operations
Radiation Science and Engineering Center
Pennsylvania State University

Cc: X. Yin (NRC)
K. Ünlü (PSU)
