| SUBJECT Follow Up discussions with University of Missouri from July 13, 2020 meeting with NRC. | | | | | | | |
| SUMMARY AND ACTION REQUIRED (IF ANY) License Participants: Todd Houts, Director; Ron Dobey, RSO; Cade Register, RSO Alt; Dave Culp, Chase Env.; Chris Echterling, Chase Env.; Dan Williams, Chase Env.; Alex Polonsky, Licensee legal council. NRC Participants: Michael LaFranzo, Senior Health Physicist; Greg Chapman, Health Physicist; Peter Lee, Health Physicist; Brittany Bolz, Health Physicist This meeting was prompted by a meeting held on July 13, 2020 to follow up on licensee decommissioning activities at Pickard Hall. During the meeting, the licensee informed the NRC that ground penetrating radar showed the pipes under the concrete basement slab of Pickard Hall had disintegrated over time and no longer contain radioactive material. Also, the licensee indicated: Sub-sampling soil outside of Pickard Hall will be delayed until the week of August 3, 2020; and work plans for the sampling and removal of drain lines will be modified and provided to NRC no later than August 3, 2020. The NRC staff requested the licensee be prepared for a site-inspection where spilt samples of the sub-soil will be requested the week of August 3, 2020. The licensee requested that NRC participate in bi-weekly meetings with licensee management and technical staff to increase the communication of work being done at the site. | | | | | | | |
