Nuclear Regulatory Commission (EPZs)

RE: Docket ID NRC-2020-0101: Do Not Weaken Emergency Preparedness for Nuclear Reactors and Other Nuclear Facilities--Strengthen it!

Dear ,

Commissioners and Staff of the Nuclear Regulatory Commission:

Since the Nuclear Regulatory Commission (NRC) is talking about turning over the responsibility of establishing Emergency Planning Zones (EPZ) for new somewhat smaller reactors, to the private companies themselves, the question immediately arises: What is the purpose of the Nuclear Regulatory Commission? If this organization is not willing to oversee all types of nuclear power plants, then you should ask yourselves why you are opting out of this responsibility.

If it is because of pressure from the private companies you are supposed to oversee, that must mean you are not making the health and safety of Americans your top priority.

This is unacceptable.

Thank you for giving thought to this concern,

Sincerely,
Rebecca Ramsay
