Pierre Saverot, Project Manager – Storage and Transportation Licensing Branch  
Division of Fuel Management  
Office of Nuclear Material Safety and Safeguards

ATTN: Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Docket No.: Docket No. 71-9378 (HI-STAR 100MB Model)  
EPID: L-2019-LLA-0242

Subject: Revised Submittal Date for Responses to NRC's Request for Additional Information (RAI) for HI-STAR 100MB Transport Package License Amendment Request 9378-1

Reference: "Submittal Date for Responses to NRC's Request for Additional Information (RAI) for HI-STAR 100MB Transport Package License Amendment Request 9378-1" (Holtec Letter 5026005 from Brian Seawright (Holtec) to Pierre Saverot (NRC) dated May 14, 2020)

Dear Mr. Saverot,

By letter dated May 14, 2020 (referenced), Holtec informed the NRC staff the need for additional testing and benchmarking of material to appropriately respond to NRC's requests for additional information (RAI) in completing the detailed technical review of the HI-STAR 100MB transportation package amendment request 9378-1. In the referenced letter, Holtec had provided the date of July 31, 2020 to complete additional testing and benchmarking of material.

To ensure the additional benchmarking of material appropriately addresses the NRC's RAIs, Holtec is unable to submit additional information by July 31, 2020. Instead the RAI responses will be submitted to NRC staff on or before September 18, 2020.

If you have any questions, then please contact me at 856-797-0900, ext. 3931.

Sincerely,

A handwritten signature in blue ink, appearing to read "B. Seawright", with a stylized flourish at the end.

Brian Seawright  
Licensing Engineer  
Holtec International
