WASHINGTON, D.C. 20555-0001

August 6, 2020

Technical Specifications Task Force
11921 Rockville Pike, Suite 100
Rockville, MD 20852

SUBJECT: ACCEPTANCE FOR REVIEW REGARDING TRAVELER TSTF-577,
REVISION 0, "REVISED FREQUENCIES FOR STEAM GENERATOR TUBE
INSPECTIONS" (EPID L-2020-PMP-0005)

Dear Members of the Technical Specifications Task Force:

By letter dated June 8, 2020 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML20160A359), you submitted to the U.S. Nuclear Regulatory Commission (NRC) a request to incorporate Traveler TSTF-577, Revision 0, "Revised Frequencies for Steam Generator Tube Inspections," into the standard technical specifications.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that Travelers are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours have been billed accordingly. The NRC staff estimates that the review will require approximately 700 staff hours including project management and NRR staff audit time.

The NRC staff has completed a preliminary review of your submission and determined it is sufficiently complete and appropriate to initiate a more comprehensive review. The review will generally follow the schedule below.

MILESTONE	SCHEDULE DATE
Issue Request for Additional Information	October 9, 2020
Issue Draft Safety Evaluation	March 24, 2021
Issue Final Safety Evaluation	June 8, 2021

If you have any questions, please contact me at (301) 415-1774 or via e-mail to Michelle.Honcharik@nrc.gov.

Sincerely,

Michelle C. Honcharik, Senior Project Manager
Technical Specifications Branch
Division of Safety Systems
Office of Nuclear Reactor Regulation

Project No. 753
