RE: Request for NRC License Retention During New RSO Training

Dear Mr. Tran,

Gentex Corporation ("Gentex") respectfully requests that the U.S. Nuclear Regulatory Commission ("NRC") maintains Gentex's NRC License 21-32837-01 ("License") with authorized use at section 9.A. of the License as storage only, while Gentex facilitates the training of a new Radiation Safety Officer ("RSO") pursuant to 10 C.F.R. § 35.50.

During the interim, Gentex shall immediately secure in storage all licensed material at 380 Riley Street, Zeeland, Michigan and maintain all additional License conditions until further notice by the NRC. Ron Storteboom, who is listed on the License as Authorized User, shall continue oversight and restrict all access to the material until such time that a new RSO is appointed through license amendment and approved by the NRC.

If you have any questions regarding this matter, please do not hesitate to contact Emily Beck, Gentex Health & Safety Manager. Ms. Beck may be contacted directly at (616) 772-1800 ext. 4922 or via email at emily.beck@gentex.com.

We appreciate your consideration and attention to this matter.

Very Truly Yours,

Scott Ryan
Vice President

Hi Tammy,

Please process this letter as a new license amendment request for Gentex Corporation (21-32837-01). Please let me know if you have any question.

Thank you,
Frank

Subject: [External_Sender] Letter to NRC

Hi Frank,

Please see the attached letter regarding our NRC License 21-32837-01. Thank you for all of your guidance as we progress through the requirements for naming a new Radiation Safety Officer.

Sincerely,
Emily Beck
