Nuclear Regulatory Commission (VLLW)

RE: No Radioactive Waste In Our Landfills

Dear ,

To the NRC Commissioners, Staff and VLLW Docket NRC-2020-0065

The VLLW reinterpretation of NRC guidance and rules for managing and disposing of nuclear waste are a threat to me in several ways:

They would allow potentially entire nuclear reactors to be dumped as if not radioactive.

Entire nuclear power reactors-buildings, concrete, soil, metal components, pipes and more become radioactive waste during nuclear power production.

Sincerely,
Mr. Norman Lane
