Please extend your comment deadline to 90 days beyond August 31 for stakeholder comments.

1. Please hold a community meeting as you promised – either virtually – or even better – postpone until safer time to have a meeting
2. As families are working on getting back to school safely, it is not a good time to sneak in this EIS for the Westinghouse Fuel Fabrication Facility relicensing without community input.
3. Please send a postcard with your EIS activity to each household as many do not have functional internet.

Please protect our environment because it affects us all – and that means you too!

Concerned South Carolina Citizen,  
Coral McCord
