Subject: [External_Sender] Westinghouse Columbia Fuel Fabrication Facility - Columbia, SC - Lower Richland County

Good morning. I am Chief Michelle Mitchum of the Pine Hill Indian Tribe. My Tribe originates during the colonial period at the Wateree-Congaree River Basin in Richland County, SC but was removed from our original lands by the US Government for the installation of Fort Jackson. Acknowledgment of one of our Ancestors' original homesite, Site 466, was publicly announced by Fort Jackson in 2013. Colonial records show that Fort Congaree was built for our People in a trade agreement between my People, James Moore and the Commissioners for Indian Trade.

It has been brought to my attention that Westinghouse, operating within our original tribal area, may be prematurely requesting a license renewal and the comment period on this issue ends on August 31st.

I am aware of several violations over the past few years that potentially effect both the environment and human life. I respectfully request information on this matter, especially as it pertains to the past and current Environmental Impact Statements for this facility for review so that we may provide educated comment on this matter.

I have contacted Chief Bill Harris on this matter but we have not yet spoken regarding Westinghouse. Thus, I am also requesting an extension of the August 31st comment deadline to allow our Tribe an opportunity to comment.

Chief Michelle Mitchum
