

UNITED STATES
ATOMIC ENERGY COMMISSION
WASHINGTON 20545

January 25, 1974

NOTE TO: K. Goller

The second paragraph of this letter ought to be changed to more correctly reflect the status of the Diablo Canyon licensing proceeding. You ought to point out that an application for a construction permit was reviewed way back when, there was a public hearing, there was a subsequent environmental hearing, and that the construction permit was issued on _____, and that since that time the plant is blank percent complete. Then pick up with -- In July of 1973, PG&E amended its application to request a license to operate the plant. Then you can talk about the FSAR, Section 2.5, etc.

Roger S. Boyd, ADDRP

Karl -

I have added a
paragraph to the letter
