SUBJECT HI-STORM 100 Amendment No. 15, Second Round of RAI		
SUMMARY AND ACTION REQUIRED (IF ANY) Holtec Attendees: Stefan Anton, Vadym Makodym, and Kim Manzione NRC Attendees: Yen-Ju Chen and Veronica Wilson  NRC requested clarification on the method used to determine occupational dose estimates in Table 10.II.3.1, which it has expected would include a single adjustment factor from previous estimates to account for the new loadings associated with Amendment No. 15. Holtec indicated that the method it used included an extra step to account for the original calculations used to support the HI-STORM 100 Amendment No. 15, and it would recalculate the occupational dose estimates and update Table 10.II.3.1 with a single adjustment factor. Holtec will provide the updated information by September 7, 2020.
